LED orientation light 230VAC RGB 116900 Rated voltage 230V, current type AC, protection class (IP) IP20, dome color other, LED orientation light 230 V~ RGB Features: LED orientation light for use in private and commercial areas. The orientation light is used e.g. B. for lighting stairs or as an orientation aid in dark rooms. RGB LEDs are used as light sources. The light colors white, blue, red, green and orange can be set one after the other via a control input or a continuous color cycle can be started across the entire color spectrum (approx. 5 minutes). By stopping at the appropriate point, any desired color can be adjusted. The brightness of the light can be adjusted individually. A foil can be inserted into the cover, which can be individually labeled. Pictograms can be inserted to mark rooms and paths. Notes: Professional labeling via the Gira labeling service www.beschriftung.gira.de.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
