Main line branch terminal HLAk 4-8x16 number of poles 4, rated current 130A, screw connection type, height 35mm, width 80mm, depth 47mm, the OBO main line branch terminals HLAk are among the safest terminals that are used in the field of electrical installation. The basic use of two screws per clamping point ensures reliable contact pressure even if the outer clamping should have loosened due to the conductor being bent. The HLAk.... are multi-pole blocks with high-strength quick fastening made of galvanized sheet steel. These types are available with four and five poles and also offer excellent snap-on convenience on DIN rails. Terminal covers are available in the usual established wire colors.
