Main line branch clamp HLAK 1-2x35 GR Number of poles 1, rated current 190A, screw connection type, height 40mm, depth 55mm, the OBO main line branch clamps HLAK are among the safest clamps that are used in the field of electrical installation. The basic use of two screws per clamping point ensures reliable contact pressure even if the outer clamping should have loosened due to bending of the conductor. The HLAK.... are multi-pole blocks with high-strength quick fastening made of galvanized sheet steel. These types are available with four and five poles and also offer excellent snap-on convenience on DIN rails. Terminal covers are available in the usual established wire colors.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).
** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.
*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
