Shutter Actuator 2-fold, 2SU MDRC, 8A, 230VAC. For 230VAC shutter motors up to 300W. With sun position calculation. Comprehensive application. Lockable manual operation and LED indicator for each channel. Operation mode blind/shutter. Practical ventilation function (window open/tilt). Automatic sun shading/slat adjustment with sun position calculation. Travel-, pause-at-change-of-direction and step time adjustable. Separate travel time for up and down adjustable. Tip operation for accurate positioning. Extended 1Bit automatic positions and logical functions. 1Byte absolute positioning for shutter and blinds. Alarm, central- and block functions. Behavior after alarms and locking separately configurable. Priority/forced operation with automatic release time. Adjustable behavior in case of bus voltage failure/return. Two contacts share one L-connection. Quick application download (long frame support for ETS5).

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
