plus shipping**4-5 days* (USA)**

SIAF 1.5 sw Ri.100 silicone stranded conductor material copper, nominal conductor cross-section 1.5mm², conductor class class 5 = finely stranded, specification of core insulation rubber - silicone rubber (SIR), core color black, flame-retardant according to EN 60332-1-2, low smoke according to EN 61034-2, outer diameter approx. 3mm, max. External cable temperature after installation without vibration -60 ... 180°C, nominal voltage U0 300V, min. permissible bending radius, stationary use/fixed installation 12mm, nominal voltage U 500V, is used where high temperature fluctuations make conventional PVC-insulated cables brittle or brittle. The insulation is based on silicone rubber. It is resistant to vegetable and animal fats, many oils and diluted acids as well as decomposition by alcohols, plasticizers, alkalis and saline solutions. The insulation is tropicalized and resistant to oxygen and ozone. In the event of a fire, an insulating layer forms around the bare wires. Max. operating temperature 180 °C. Copper base: EUR 150 per 100 kg

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
